- 1 Groundwater elevation will be measured quarterly at each monitoring/extraction well/piezometer.
- 2 Can sample more frequently than required by this Order. However, the results from additional samples must be provided to the CVRWQCB for review.
- 3 Any new monitoring wells installed shall be sampled quarterly.
- 4 Semiannual sampling shall be 2nd and 4th quarters. Annual sampling shall be 4th quarter.
- a, b At a minimum, operating groundwater extraction wells shall be sampled monthly.
- c, d, e EPA Method 8015M - (a) TPHg (b) TPHd (See Table 2)
- 5 EPA Method 8260B - (c) BTEX, (d) fuel oxygenates, (e) VOCs (See Table 2)
- 6 Water level measurement only.
- 7 domestic well in house
- 8 2145 Yosemite domestic well (in yard west of house)
- 9 MtBE detected south of site for first time 12-12-2004
- House destroyed and well disconnected from treatment system in 2006. Resume sampling when repaired.
